Choose a Currency

Why Currency?

Trading a specify unit of value for another of equal or greater value...

A premium product/service provides customers with a specific and measurable outcome (desires result)...

If the Currency is valuable enough, including the cost of not achieving the desired outcome, marketing and sales become frictionless.

There are actually very few “Prime Currencies” that you must choose from...

Currency Goals

Choose one specific result the marketing is already paying to solve!

Gain 100% confidence in your product before you launch...

Set the stage for an irresistible offer, making sales and marketing easy!

Currency Challenges

Most startups are vague and don't deliver a clear desired outcome or result...

This makes it almost impossible to stand out and scale.

Few startups offer a unique mechanism or system for achieving results...

Currency Steps*

1. Use the Currency Calculator to list all off the Currencies your product can increase or decrease...
2. Use market research, client feedback or historical data to choose ONE CORE CURRENCY for your product...
3. Keep your Currency Calculator handy - we'll use it to create your Product/Service Roadmap!

Currency Basics

$$(SC * 9) = CoreCurrency$$

Product Roadmap	SC	SC	SC
	SC	SC	SC
	SC	SC	SC

= Core Currency

Your product/service will solve several (at least nine) smaller problems in order to deliver in the Core Currency...

Your product will cater to multiple Avatars, a Primary and 3-4 secondary target customers. Your aim is to focus on the Primary Avatar first and then test and scale from there...

Secondary Currencies will be used to create your product and generate content...

		THE FUNNEL			B DESIRES
		Facebook Ads	Content Marketing	SEO	
Floodgates	7	Traffic on demand	8 Publishing Powerhouse	9 Ranking Rulebook	← TRANSFORMATION (from x to y)
		slot machine / ATM	invisible / unmissable	complex / simple

The Crypto Company Announces the Acquisition of Blockchain Training Alliance

PR Newswire

MALIBU, Calif., April 8, 2021

MALIBU, Calif., April 8, 2021 /PRNewswire/ -- The Crypto Company (OTC: CRCW) is proud to announce the closing of the acquisition of Blockchain Training Alliance.

[IMG]

This acquisition of the company and its intellectual property is expected to compliment The Crypto Company's existing Blockchain educational service offerings.

Blockchain Training Alliance, a blockchain training company, was established in 2018. They have provided training and educational courses to some of the largest companies in the world. They service both corporate and individual

Currency Hierarchy

Your product/service must solve one specific and important (Primary) problem for customers. To do this, your product must solve nine supporting or secondary problems...

	Primary Currency		
STAGE C	Secondary Currency 7	Secondary Currency 8	Secondary Currency 9
STAGE B	Secondary Currency 6	Secondary Currency 5	Secondary Currency 4
STAGE A	Secondary Currency 1	Secondary Currency 2	Secondary Currency 3

Primary Currency: The single measurable unit of value your product helps customers attain or achieve.

Secondary Currency: The nine supporting measurable units of value necessary to deliver on the promise of your Primary Currency

The Greatest Myth in Marketing

“Riches in niches...” - customer-centric model

Lower scale, lower profits, higher customer value
- “the boutique agency”

“Scale without fail...” - currency-centric model

Higher scale (“mass market”), higher profitability...

MVP

The Elephant in one bite model

Confusing, overwhelming, daunting and difficult

The Minimum Viable Problem model

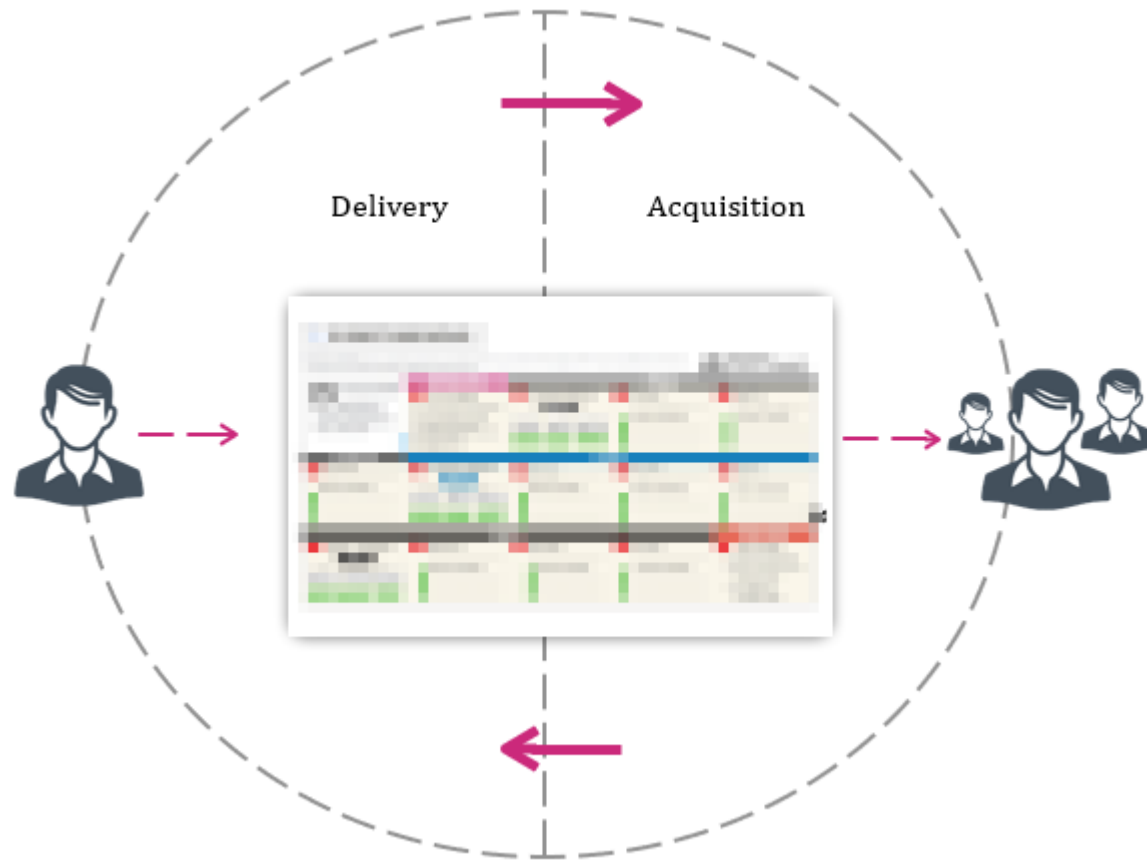

"Hot" currency, high curiosity, high conversions!

How to Scale a Product

Each Secondary Currency can be used to segment Secondary Avatars at massive scale
